Employment History

August 2022 – Present | **Professor of Statistics**, *Qatar University*, Doha, Qatar
Department of Mathematics, Statistics, and Physics, College of Arts and Sciences.
Teaching (2022-2025): Introduction to Statistics, Multivariate Analysis, Stochastic Processes, Actuarial Statistics I&II, Statistical Computation and Simulation, Advanced Biostatistics (For Ph.D. Candidates), Bayesian Statistical, Experimental Design, Critical Thinking (Honors Program), Expertise, Experience and Exchange: tips for research methods (Honors Program).

July 2021 – July 2022 | **Professor of Statistics**, *The American University in Cairo*, Cairo, Egypt
Department of Mathematics and Actuarial Science, School of Sciences and Engineering.
Teaching: Statistical Inference, Introduction to Statistics, Data Science with Python

2003 – 2021 | **Professor / Associate Professor / Assistant Professor**, *University of Carthage*, Tunis, Tunisia
Ecole Supérieure de la Statistique et de l'Analyse de l'Information
Positions: Professor (from 2018), Associate Professor (2011-2018), Assistant Professor (2003-2011).
Teaching: Data Analysis: Principal Component Analysis, Correspondence Analysis, and Multiple Correspondence Analysis, Theory and Practice with R, Mathematical Statistics: Statistical Inference, Hypothesis Testing, Regression Analysis, Theory and Practice with R, Data Mining and Practice with R, Bayesian Statistics with OpenBugs/Winbugs/RStan/Jags, Time Series: ARMA and SARIMA Processes, Theory and Practice with R/Python, Big Data: Large Data with R/Python, SQL, Spark, H2O, Advanced R/Python: Data Management, Data Visualization, Dashboards, Shiny Apps, Heroku Apps, Bokeh.
Research: Supervising 5 Ph.D.: Detection and classification of swallowing sound, Sensory Analysis, Genetics, Zoonotic cutaneous leishmaniasis incidence, Cardiovascular risk factor. Supervising Master and Engineering Thesis on several topics related to applied statistics and data science.
Administration: Director of the Department of Statistics (2004-2007)

2014 and 2019 | **Visiting Associate Professor / Associate Research Scholar**, *Yale University*, New Haven, USA
Whitney and Betty MacMillan Center for International and Area Studies and the Department of Statistics and Data Science.
Positions: Visiting Associate Professor (2014), Consulting on several projects with Yale Scholars (2015-2018), Associate Research Scholar (2019).
Missions: Democratic Transition in Tunisia, Governance and Local Development: Implementing two face-to-face surveys in Tunisia, G-econ team on building local GDP data, Teaching Time Series with R/Python Course.

2016 – 2017 | **Visiting Fulbright Scholar**, *University of Michigan*, Ann Arbor, USA
Center for Political Studies of the Institute for Social Research.
Role: Research: Working on Data Quality, Survey Methodology, Interviewer Effect. Teaching: 4 Lectures on Applied graphical Models, 1 Lecture on Data visualization with R, 1 Lecture on Sensory Analysis.

2011 | **Visiting Fulbright Scholar**, *Stanford University*, Palo Alto, USA
Department of Statistics.
Role: Research on Graphical Models, Faithfulness assumption, and Covariance graphs.

2002 – 2003 **Visiting Assistant Professor**, *York University*, Toronto, Canada
Department of Statistics.
Teaching: Applied Regression Models with SAS, Introduction to the theory of probability, Introduction to Statistics with Minitab.
Research: Monte Carlo Methods and Bayesian Estimation of the Graphical Models.

1998 – 2002 **Assistant Professor**, *University of Sousse*, Sousse, Tunisia
Institut Préparatoire aux Ecoles d'Ingénieurs.
Teaching: Analysis, Calculus, Algebra.
Research: Natural Exponential Families, Pick functions, Markov Chains.
Administration: Director of the Department of Mathematics

Education

September 2009 **Habilitation (Tenure), Statistics**, *Université de Tunis El Manar*, Tunisia
Ecole National d'Ingénieurs de Tunis.
Thesis title: *Problèmes autour de la probabilité et de la statistique: Méthodes et Applications*.
Dissertation: `https://malouche.github.io/myCV/reports.html`

October 1997 **Doctorate (Ph.D.), Statistics**, *Paul Sabatier University*, Toulouse, France
Thesis title: *Classification des familles exponentielles associées à des fonctions Pick*.
Dissertation: `https://malouche.github.io/myCV/reports.html`

1993 – 1994 **Master's Degree (D.E.A)**, *Paul Sabatier University*, Toulouse, France
Applied Mathematics, Statistics

1989 – 1993 **Bachelor (Maîtrise)**, *Ecole Normale Supérieure de Bizerte*, Tunisia

Supervised Ph.D.

2019-06-28 **Safa AOUINTI**
Statistical treatment of NGS results from IMGT/HighV-QUEST of antigen receptors (immunoglobulins and T receptors): methodology and visualization

2019-06-22 **Khouloud TALMOUDI JABBARI**
Spatio-Temporal Modeling of Zoonotic Cutaneous Leishmaniasis (ZCL) in Central Tunisia

2019-05-21 **Hajer KHLAIFI**
Preliminary study on the detection and classification of swallowing sounds

2019-02-14 **Olfa SAIDI**
Modeling the Tunisian Burden of Cardiovascular Diseases and Diabetes

2018-07-02 **Ibtihel REBHI**
Statistical methods for sensory and consumer data mapping

Skills

Languages Strong reading, writing and speaking competencies for English, French, and Arabic.

Coding Python, R, tableau, spark, h2o, Shiny, LaTeX, ...

Misc. Quantitative research, Project management, Qualitative research, Data Mining, Machine Learning, Big Data, Academic research, Teaching, training, consultation, LaTeX typesetting and publishing.

Grants

2024-2025 **Autoimmune disorders profile pre and post-COVID era**, *QF-QBB-RES-ACC-00277*
Research on the prevalence and management of autoimmune diseases in Qatar using advanced data analysis techniques to develop prognostic models and inform public health policies, based on Qatar Biobank data from 2015-2023.

2024-2025 **Investigating Gender Disparities in Quality of Life Across the Qatari Population**, *QF-QBB-RES-ACC-00281*

Research project analyzing health-related quality of life (HRQOL) disparities in Qatar, focusing on gender differences using data from the Qatar Bio Bank. The project utilizes advanced machine learning to inform public health policies and reduce health inequalities.

Fall 2025 **Proteomic Signatures of Fatigue and Mental-Health Symptoms in the Qatar Biobank Cohort**, *QF-QBB-RES-ACC-00178*

Research project investigating molecular mechanisms underlying chronic fatigue in Qatar Biobank participants. Using proteomic profiling to identify inflammatory and metabolic signatures that differentiate fatigued from non-fatigued individuals, with integration into Bayesian networks to test pain-fatigue-mental health pathways and explore sex-specific profiles for targeted interventions.

Fall 2024 **Detecting the Undetectable: A Study on AI Tool Efficacy in Academic Writing**, *Student Grant 2024 Cycle 2, 130*

Research project evaluating the efficacy of AI detection tools in identifying AI-generated text in academic settings, aiming to enhance academic integrity policies at Qatar University.

Spring 2025 **Comparative Analysis of Research Publication Trends**, *Student Grant 2025 Cycle 1, 293*

A Decade-Long Study of Leading MENA and Global Universities (2010–2020). This study aims to analyze research output trends, citation impact, and collaboration networks among major universities in the MENA region and globally.

Papers

Research Interests

Bayesian networks and graphical models, Biostatistics and health outcomes research, Qatar Biobank data analysis, Path analysis and causal inference, Meta-analysis and systematic reviews, Chronic pain and mental health modeling, Educational statistics, Statistical computing and data visualization, Consumer preferences and sensory data analysis.

Research Papers

1. Al-Khinji, A., Malouche, D., Al-Thani, N., Mustafa, A., Abdulmajeed, J., & Al-Kuwari, M. G. (2026). Hematological abnormalities in clinically diagnosed non-alcoholic steatohepatitis: prevalence, clinical correlates, and fibrosis risk in a case–control study from Qatar. *Frontiers in Medicine*, 13, 1773499.
